

Production Associate

Brendan Ravenhill Studio is seeking a sharp, energetic and hard-working Production Associate to join our team. This is a fast-paced, hands-on opportunity to learn how a small design studio designs, markets and manufactures high-end lighting fixtures. You'll be working with a small, passionate team of makers and designers who take great pride in what we do. The ideal candidate has the drive to constantly improve, is passionate about their craft and is detail-oriented to a fault.

Responsibilities

- Learn to build, pack and ship our chandeliers, pendants and sconces.
- Assist the Production Manager in the timely completion of our weekly builds.
- Maintain sub-assembly inventory and a clean, organized studio.
- Master our methods and standards in order to serve as the studio's final eye, and ensure that our products meet the studio's high quality standards.
- Take part in our Creative Friday projects, where we take on in-house build projects, studio upgrades and skill-share workshops.

Qualifications

- Basic woodworking or construction knowledge and the ability to think with one's hands.
- A passionate interest in efficiency and the way things are made.
- An eagerness to learn and master our unique building techniques.
- A high attention to detail.
- An ability to take initiative while learning new things.
- An ability to work as a member of the team and follow directions.

This job is great for those looking for an entry-level position in the world of design and manufacturing. The position is full-time and includes benefits. Prior experience or relevant education is a big plus but not a deal breaker. We value interest and attitude more than what you have done. If this sounds like you, please send your resume, cover letter and portfolio to careers@brendanravenhill.com. Due to the large number of submissions, we may not respond to all inquiries. If this is your dream position, please impress us with a great cover letter, full of character and devoid of typos.

In your cover letter, please tell us a bit about who you are by answering the following questions:

- What is your favorite thing you have recently built and why?
- What drives you?
